Corrigendum

Tender Reference No. HO/IT/14/2021-22/434 dated 11th March 2022

Summary of additional pre-bid queries along with Bank response are as under:

Cyber Security RFP - Response to Bidder queries					
Page #	Section #	Point/ Section	Query	Bank's Response	Clarifications/ Corrigendum/ Addendum
28 Page of RFP	Section 3.1.7	Data Loss Prevention (DLP): the peak web requests per second is 3500 and Average Request Size is 1024 (KB)". This is way huge we can expect this much load in only lager enterprises with user count of 80K+ nodes & the hardware sizing will be very huge.	As per industry recommendations and assumptions can we considering average of 350 req/sec with 100 KB average size for sizing the solution. Please Clarify.	The Revised parameter for sizing the DLP solution - "The average web request should be 350 request/sec with 100 KB average request size for sizing the solution.	Corrigendum
